# #WATCH THE VOTE ATL

**#WatchTheVoteATL** is a community-academic partnership led by The BLK+Cross/Alive and in Color and Georgia Tech Institute for People & Technology, to track and disrupt election mis/disinformation in Fulton County — OUR community.

**The BLK+Cross** brings over 20 years experience leveraging ethnographic and digital technologies to better understand and engage BIPOC, youth, and socially vulnerable populations through culture.

**Georgia Tech** offers world-leading expertise in mis/disinformation and election security, along with 15 years of frontline experience helping coalitions around the world address election integrity threats.

# ***WHY WE HAVE TO WATCH THE VOTE***

The 2020 U.S. General Election revealed just how damaging mis/disinformation can be — not only at the national level, but at local election offices too.

Fulton County has been at the center of election integrity challenges, with widespread false accusations, such as claims that poll workers engaged in voter fraud.

These types of claims weaken trust in the system and even lead to voter disenfranchisement.

In 2024, we face the added challenge of AI-driven mis/disinformation, and we need to be prepared to counter it.

# ***MIS/DISINFORMATION***

## A FORM OF VOTER SUPPRESSION

Online voting mis/disinformation is designed to quietly stop people from voting— spreading false dates, fake reports of long lines, or casting doubt by claiming elections are “rigged.”

When trust in the process breaks down, so does voter participation.

**Misinformation** – false information shared by mistake, without the intent to deceive or cause harm.

**Disinformation** – False information spread intentionally to mislead or cause harm.

Regardless of intent, these instances chip away at democracy. Voters need clear facts to cast their ballots with confidence.

# ***DISRUPT DISINFO***

- Monitor social media for posts about voting
- Flag false information about voting rules and procedures
- Identify common keywords and phrases used to spread mis/disinformation
- Investigate posts to confirm if they're true or false
- Report confirmed cases to election officials, media, and community organizations
- Share accurate updates with your network
- Join us in strengthening election protections

---

## CHARACTER LIMITS

On X (Twitter), keep posts under 280 characters for clarity.

## AUDIO

Use trending audio on Instagram posts and Reels to boost visibility and engagement.

## TEMPLATE ELEMENTS

Please do not change any locked elements in the templates provided. This ensures our campaign's branding stays consistent. Duplicate the visuals, make your edits, and then download the final version to your computer before posting.

## REFERENCE MIS/DISINFORMATION CORRECTLY

**When addressing false information, always refer to it as mis/disinformation.** Misinformation is unintentional but still harmful, while disinformation is deliberately misleading. Both can damage public trust and interfere with the election process, so it's crucial to name them accurately.

***Following these best practices will help maximize the reach and impact of our campaign to protect the vote in Atlanta. Let's make a difference together!***

# RUMOR vs REALITY

🔍 WAS THE GEORGIA ELECTION STOLEN IN 2020?

DISRUPT DISINFO  
DEFEND DEMOCRACY

#WATCHTHE  
VOTEATL

⚠️

## WAS THE GEORGIA ELECTION STOLEN IN 2020?

Claims that electronic voting machines flipped votes became a central focus of voter fraud allegations in Georgia after the 2020 election.

Despite little evidence to support the claims, allies of former President Donald J. Trump flooded news networks and courthouses, insisting that machines, including those made by Dominion Voting Systems, had altered votes.

THE RUMOR

# 🗳️

✅

## WAS THE GEORGIA ELECTION STOLEN IN 2020?

Exhaustive fact checks found little evidence of voter fraud in Georgia, with fewer than 475 potential cases out of over 25 million votes cast—far too few to affect the outcome.

Even Ken Block, hired by the Trump campaign to investigate voter fraud, concluded that the 2020 election was not stolen. Despite the facts, 2020's big CAP continues to live on.

THE REALITY

#WATCHTHE  
VOTEATL

False claims disrupted the 2020 election in Fulton County—and now, AI-powered lies are gearing up for 2024.

Our mission: monitor, expose, and counter disinformation meant to confuse voters in our communities.
